PROFILE

B.Tech Computer Science Engineering student with hands-on experience in APIs, Java, and full-stack problem-solving. Active campus leader with a track record of organizing technical and community events. Comfortable across the stack — from IoT and machine learning projects to responsive front-end interfaces.

EDUCATION

B.Tech — Computer Science Engineering

CGC University, Mohali (affiliated with Punjab Technical University) | Expected 2026 | CGPA: 7.29

Senior Secondary (12th)

KV International School, Una, Himachal Pradesh | 2023 | 70%

Secondary (10th)

KV International School, Una, Himachal Pradesh | 2021 | 85%

PROJECTS

AI Crop Detector

Python · Machine Learning · Image Processing

- Built a machine-learning tool that analyzes crop images to detect plant health and disease patterns, helping farmers catch issues early.

Currency Converter

HTML · CSS · JavaScript · API

- Developed a responsive web app that converts between world currencies in real time using a live exchange-rate API.

Smart Umbrella

IoT · Arduino · Sensors

- Designed an IoT-based smart umbrella that reads live weather data and alerts users to rain, wind, and UV conditions.

CamFu — AI Surveillance System

Java · JavaFX · Python · OpenCV · TensorFlow · Flask · MySQL

- Built a desktop surveillance platform with a JavaFX UI streaming live camera feeds via VLC, backed by a Python AI engine that scores feeds by activity using OpenCV and deep learning.

SKILLS

Frontend	HTML, CSS, JavaScript, React
Backend	Node.js, MySQL, APIs, Java
Other	Python, OpenCV, Machine Learning basics

CERTIFICATIONS

- Programming Fundamentals in Python — Infosys Springboard
- Programming Fundamentals in Java — Infosys Springboard
